**Re: Safety Light Corporation Site
Bloomsburg, Pennsylvania**

Dear Mr. Woodring,

The purpose of this letter is to obtain certain information from you in connection with the Safety Light Corporation Site.

As you know, the U.S. Environmental Protection Agency (EPA) is currently investigating the source, extent and nature of the release or threatened release of hazardous substances into the environment at the Safety Light Corporation Site, which was a facility that occupied and operated approximately 2 acres of a 10-acre property adjacent to the Susquehanna River off Old Berwick Road, Bloomsburg, Columbia County, Pennsylvania (hereafter known as the "Site"). This investigation involves an inquiry into, among other things, the past and present ownership of the Site and its operators, including the U.S. Radium Corporation. EPA is also interested in information concerning the generation, storage, treatment, transportation, and disposal methods of radioisotopes and other hazardous substances that have been or threaten to be released from the Site. EPA believes that you *may* possess information which may assist the Agency in its investigation of the Site.

Please respond in writing fully and completely to the following item within **ten (10)** days of your receipt of this letter:

INFORMATION REQUESTED

1. Do you have, and/or are you aware of other persons who may have, documents (including but not limited to letters, diaries, notes, contracts, agreements, photographs, brochures, manuals, reports) related to U.S. Radium or Safety Light Corporation's operations at the Site, or the handling or disposal of radionuclides or other hazardous substances there?
2. If your answer to the above question is anything but "No," please provide copies of the documents in your possession, and/or provide the name of the other person(s) who may have such document(s) in their possession.

*Printed on 100% recycled/recyclable paper with 100% post-consumer fiber and process chlorine free.
Customer Service Hotline: 1-800-438-2474*

EPA's authority to require submission of information concerning hazardous substances is listed in an enclosure to this letter.

—We appreciate and look forward to your prompt response to this letter. EPA is convinced that the appropriate investigation and clean-up of hazardous sites can only be accomplished through full participation of interested citizens, and we note your contribution to this effort through your response to this letter.

Any questions you may have regarding the current status of this Site in the Superfund process can be directed to the Site Remedial Project Manager, Mitch Cron, at 215-814-3286.

If, for a particular reason, you are hesitant to answer this letter because you are concerned about public disclosure of your name in connection with the information you are required to submit, please clearly advise EPA in your response that you request confidential treatment of your identity. EPA cannot guarantee confidentiality, and does not encourage such a request, but we recognize that it may be appropriate in certain instances. In the event that you do request confidential treatment of your identity, EPA will evaluate whether such confidential treatment is warranted in your case. Please do not request confidential treatment of your identity unless you believe it is necessary.

If for any reason you do not provide all information responsive to this letter, you must: (1) describe specifically what was not provided, (2) supply to EPA a clear identification of the document(s) not provided, and (3) provide to EPA an appropriate reason why the document(s) was not provided.

Please send all documents and information to:

Harry R. Steinmetz (3HS62)
U.S. Environmental Protection Agency, Region III
1650 Arch Street
Philadelphia, PA 19103-2029

If you have any questions please feel free to contact Mr. Steinmetz at 215-814-3161.

Sincerely,

Joanne L. Marinelli, Chief
Cost Recovery Branch
